If you can't reuse it, refuse it!

To mark the 2018 World Environmental Day, the North West Department of Rural, Environment and Agricultural Development is embarking on a rigorous educational campaign to promote awareness amongst communities of Tswaing Municipality on the importance of preserving biodiversity and of protecting the environment.

This year's theme "Beat Plastic Pollution" is intended to bring together industries, communities and individuals to explore sustainable alternatives and urgently reduce the production and excessive use of single-use plastic polluting the environment.

To get across eco-awareness messages and to increase green footprint, the department will be hosting this event as follows:

**Date**: 22 June 2018  
**Time**: 10:00  
**Venue**: Agisanang Stadium, in Sannieshof  
**Theme**: “Beat Plastic Pollution”
