Entities Reporting to the Minister

There have been no significant changes to the department's legislative and other mandates.

MEC'S STATEMENT

The 2009/10 Crime statistics report has shown that our targeted and focused strategies, renewed vigor from the police and support of communities to push back the frontiers of the evil of crime are making an impact as we recorded the highest decrease in murder, cash in transit robberies and arson in the country and an overall decrease in crime as compared to past financial years.

Though murder was reduced by (-13.4%), cash in transit robberies by (-33.3%) and arson by (20%), we are challenged to redouble our effort to bring down truck jacking and public violence and commercial crime which increased to 42.9, 30% and 15% respectively.

Improving coordination of crime prevention initiatives has ensured that our communities enjoy good community police relations however; intensifying our endeavor to restore confidence in the ability of government to provide an accessible, efficient, effective accountable, transformed and reliable service to our communities remains our priority.

Our law enforcement agencies were tried and tested in character and courage during implementation of the integrated safety and security operational plan for the 2010 FIFA World Cup but maintained composure even under trying and stressful conditions and made us proud to be South African, the envy of world and the pride of Africa.

Based on lessons learnt during the best ever football world cup that we hosted in a safe and secure environment, a Provincial Command Centre has been set up, war rooms reengineered to coordinate 10 111 processes and monitor all police vehicles.

As part of the 2010 FIFA World Cup legacy and business reengineering process led by the newly appointed Provincial Commissioner, Lieutenant General Zukiswa Mbombo, additional resources and vehicles were distributed to needy policing areas. The redistribution has boosted the morale of the police and members of the community policing forum for an onslaught against crime.

We call our municipalities and the business sector to adopt and support implementation of the crime prevention through environmental design strategy which complements our Integrated Provincial Strategy to prevent and combat sexual offences as a contribution to pushing back the frontiers of crime and building better communities.

Implementing the National Rolling Enforcement for zero tolerance through Operation Clean Sweep, Operation Juggernaut and Operation Footlose as part of our Make Roads Safe Campaign afforded us an opportunity to tighten road traffic law enforcement and reduce accidents on our roads.

Our public education campaign, Operation Lemoga raised the bar obtaining third position in the Innovation in Service improvement category of the 2010 All Africa Public Sector Innovation Awards.

The achievement has set standard for people centered service delivery in line with Batho Pele “people first” principles that needs to be sustained, emulated and surpassed by all other programmes within her department.

Our mission and our conviction is to continue to work hard and smart to entrench successes in areas where we have made positive in roads.

Accordingly, in areas where there are challenges, we re-commit ourselves to working together with our municipalities, traditional leaders, North West Business Against Crime, Anglo Platinum, the Provincial Community Policing Board, Cluster Community Policing Boards, Community Policing Forums and other stakeholders to ensure that we create safer roads and communities for a better life for all

11th August 2011

Hon. D. Mohono, MPL

MEC for Human Settlements, Public Safety & Liaison

ACCOUNTING OFFICER'S OVERVIEW

We have committed ourselves to provide safety through effective co-ordination of crime prevention initiatives, police oversight, traffic law enforcement and road safety promotion and education in order to create a more secure environment. The year under review was no different towards this commitment as we were faced with the deliverance of a successful 2010 FIFA World Cup, implementation of the National Rolling enforcement plan and the , National Road Safety Strategy and other safety plans that we had put in place.

As it can be recalled, the department is newly established and came into being after April 2009 National and Provincial elections and reconfiguration of Departments. This report therefore outline activities carried out during the year under review against the Annual performance Plan of the Department, achievements, challenges and plans to overcome them in ensuring that we realise our commitment to the public.

The Department of Public Safety and Liaison is configured as follows:

Programme 1: Administration/ corporate Services

The component's main function is to provide support to the component rendering core functions in the department. It is constituted by the following Directorates:

- Office of the HOD
- Directorate MEC Support
- Directorate Management Services and Planning
- Office of the Chief Financial Officer
- Directorate Financial Management
- Directorate Revenue

- Risk Management
- Directorate Supply Chain
- Directorate HR
- Directorate Legal Services
- Directorate Communication

Programme 2: Crime Prevention and Community Police Relations

This component forms the nucleus of the department and renders the core function of providing safety through effective co-ordination of crime prevention initiatives, provincial police oversight, traffic management and road safety towards a more secure environment. It is constituted by the following components:

Chief Directorate Community Safety

- Directorate Monitoring and Oversight
- Directorate Crime Prevention
- Directorate Traffic Management
- Directorate Road safety
- Traffic Law Admin

Programme 3: Transport Regulation

This component exists to provide effective Traffic Law Enforcement throughout the Province

- Road Safety Management
- Road Traffic Management
- Traffic Law Administration

Some of the key achievements by the department are:

- ❖ Successful delivery of FIFA World Cup in Rustenburg

- ❖ Exceeding the target of unannounced police stations visits by twenty one (21) achieving eighty one (81) as against the set target of sixty(60)
- ❖ Successful implementation of the Traffic and Road Safety Plan during the Confederation and other National special events (Telkom Charity, British and Irish Lions Rugby Test Series, Mandela Challenge and Cricket)
- ❖ Launch of the Road Safety Councils and Forums
- ❖ Reduction of illegal taxi operators through joint task team operation by traffic and SAPS
- ❖ The successful implementation of the Fire Arm Amnesty campaign. A total of 28 750 firearms, ammunition, firearm parts and magazines were handed over.
- ❖ The Arrive Alive plans were in place and resulted in the reduction of accidents from 23 to 13 fatalities
- ❖ (Over collection of revenue to the amount of R105,821m over a projected budget of R212,524m. The total collection was R318,345m)

Some of the key challenges were as follows

- Insufficient funds for the Crime Prevention Projects
- Insufficient resources especially in Crime Prevention and Community Police Relations and traffic

- The need to appoint additional Traffic officers and Examiners throughout the province to meet the current challenge on driver learners and licenses and provision of 24hour service
- Office space

The department's key mandate is to put in place a higher level of law enforcement and road safety measures and to realize a decrease in the number of fatal crashes occurring on our public roads by 50%. All the above will be accomplished through the commitment of our valued staff, new policy initiatives and implementation.

In addition to Monitoring and Oversight of the South African Police Service, Road Safety Education and Crime Prevention Co-ordination, the Department is assessing the possibility of providing a 24 hour road traffic service to ensure that the province is safe and secure.

The Department is also responsible for revenue collection which it seeks to enhance and maximise to ensure contribution towards poverty eradication, crime prevention, job creation and sustainability

Strategic Objective 4 To ensure Road Safety Community Engagement(Forums and Councils)	The department established Community Road Safety Councils in all municipalities.

2.1.5 Overview of the service delivery environment for 2010/11

In our endeavour to ensure safer communities, the Department managed to monitor compliance of recommendations submitted to the SAPS. This was done after assessment of service delivery at all Police Stations throughout the Province.

The set target of 60 unannounced visits to Police Stations was increased to 81 and as a result , the department managed to register a remarkable achievement in terms of compliance to prescripts and the rendering of quality service to our communities. On the side of service delivery complaints, 66 complaints were

registered out of which 56 were investigated and finalized, thus resulting in 84.8% of complaints being finalized as compared to 70% in 2009/2010. Only ten (10) files (15.2%) were pending as at the end of March 2011

The Department ensured that all eighty one Police Stations infrastructure was monitored

Our attempt to register a positive impact on assessing the impact of the implementation of the Victim's Charter was delayed by the Department of Justice and Constitutional Development as they were unable to implement the charter.

The Department was given the role to coordinate all stakeholders in preparation of the FIFA World Cup and this was successfully done. Internally, however, the Department was faced with budgetary constraints in implementing some of its key activities and had to redirect some of the budget set for its strategic objectives towards the World Cup. To this end, the Department appointed Community Patrollers, Traffic Wardens and Road Safety Volunteers in order to make the Host City safe and secure. The Department also deployed most of its Traffic officials in Rustenburg to ensure free flow of traffic.

The national industrial strike impacted negatively on the general performance of the Department's Road Safety programme. This impact was mainly experienced at schools due to long school holidays and the recovery plan after the strike where road safety officers were denied access to schools. The Department will continue to rigorously engage schools in implementing the agreement of both the Ministers of Basic Education and Transport as per the Memorandum of Understanding (MOU) signed with Road Traffic Management Corporation (RTMC).

The target for patrols on routes with high accident rates was exceeded by a considerable margin because of the increased focus on these routes as per the National Rolling Enforcement Plan (NREP). These increased law enforcement activities, also led to the department performing tremendously

by exceeding its targets in areas like, individual drivers and vehicles inspected for driver and vehicle fitness, special operations conducted cross border operations, and roadblocks conducted.

Successful implementation of campaigns regarding destroying of the market for stolen goods was registered through Radio Talk Shows which targeted stock-theft; shoplifting and dealing in counterfeit goods. There was a successful media outreach campaign conducted through Radio Talk Shows in four Districts regarding the Anti-Police killings campaign. There was information-sharing Programme which was also conducted through radio Talk Shows focusing on topics relating to human rights incorporated SAPS; Justice and Constitutional Development; National Prosecution Authority (NPA); Human Rights Commission and the Independent Complaints Directorate (IDC).

There was good progress regarding CPTED, Sexual Offences workshops and Letsema activities given the limited budget. Lack of funding for crime prevention projects like Closed Circuit Television (CCTV) also remains a challenge and capacity-building programme implementation to address skills gaps of Community Policing Forums (CPFs). The level of readiness and cooperation of local municipalities where implementation happened, had relatively improved. The workshops targeting government officials, Non Governmental Organisations (NGOs), Traditional Leadership and other implementing agencies were attended by an average of 72% stakeholders respectively. All the activities were led by respective Municipal Councillors including Mayors. The communities were actively involved through participation of CPFs including ordinary citizens and government officials. An average of 118 people volunteered their services during those activities to assist in fighting crime through re-designing and maintenance of the environment.

It is important to mention that lack of blue lamps and torches is characterised as one of the obstacles hampering law enforcement operation after sunset. The department intends to rectify the problem through budget allocation to ensure that blue lamps and torches are procured.

The road construction works on the N14, as well as demarcation problems, hampered cross-border operations targeted for the year under review. During the 4th quarter, members from the different districts had to perform special duties in Bojanala, Ngaka Modiri Molema, and Ruth Segomotsi Mompati as a result of the ANC summit, opening of the Legislature, visit by the State President, as well as sporting events at Royal Bafokeng Stadium.

The target for speed law enforcement was also not reached as a result of the calibration of speed machines, as well as the emphasis of the NREP towards other special operations not aimed at speed detection. The 2010 world cup also affected our speed operations due to deployment duties to this event. The high number of abnormal loads that needs to be escorted, especially in Kenneth Kaunda and Bojanala, were straining the available human resources with traffic officers on escort duty not available for law enforcement. This seriously affected our ability to provide daily law enforcement activities on the patrol routes across the province.

Achievement against Nation Outcome 3 : All people in South Africa are and feel safe

Output 3.8 : Road Safety Presentations at Schools

Summary Problem Statement

Road Safety Officers are expected to conduct presentations to learners at schools as per annual targets set for each. These targets are most of the time not reached because other schools do not allow officers access during school hours.

Challenges

Access to schools remains a challenge because of prioritization to teaching by the Department of Basic Education.

Failures and Reasons

Unable to reach out to the majority of the learners throughout the Province due to lack of access to some of the targeted schools and limited resources.

What will be done differently

The Department will develop new measures of reaching out to learners outside their learning time and innovation on practical learning material. Furthermore, we will involve the Department of Basic Education during the planning phase.

Changes required to legislative and regulatory environment

There is a need to develop a policy in making road safety education part of the schools curriculum

Way Forward and Recommendations

The Department will engage the Department of Basic Education, (School Safety and Curriculum units) on the implementation of the Road Safety education programme.

Output 3.9 : Road Safety Arrive Alive Campaigns

Summary Problem Statement

The Department has limited budget for both capital and personnel resources to carry out the full mandate of road safety promotion throughout the year. Limited research capabilities on road safety issues are also a problem to put in new measure.

Challenges

Insufficient funding to conduct massive and rigorous arrive alive awareness campaigns throughout the year.

Failures and Reasons

Unable to reach out to the majority of road users throughout the year as a result of focusing mainly on peak periods.

What will be done differently?

Since road safety is everyone's responsibility, the Department will in future go out on a massive drive to seek collaborations from private and business sectors. Thus strengthen public private partnership to promote road safety.

Changes required to legislative and regulatory environment

Government to prioritize road safety as it is a social behavioural problem (the same as HIV/AIDS), since billions of rands are lost due to road accident injuries and fatalities.

Acknowledgement and commitment by Government to one of the resolutions taken by all African Ministers of Transport at the African Road Safety Conference held from 5-7 February 2007, Accra, Ghana. The resolution is one of the Millennium goals of halving number of road crashes by 2014.

Review of the South African National Road Safety Strategy

Way Forward and Recommendations

- Allocation of sufficient funds.

- Government commitment to road safety which will result in the reduction of number of road accident injuries and fatalities
- Rolling out the Make Road Safe Campaign 365 days a year.

Output 3.10: Road Traffic Management

Summary Problem Statement

Traffic Management is faced with ever escalating fatalities on the public roads in our province. Bad driver behaviour is the highest rated cause of fatal road traffic accidents, with over speeding being the major cause of fatal accidents, followed closely by pedestrian jay walking leading to pedestrian fatalities.

Challenges

One of the major challenges has been provision of 24hour service since most of the accidents occur at night. The other challenge has been limited human resources as against the increasing number of vehicles on an annual basis.

Failures and Reasons;

Limited resources.

What will be done differently?

Several critical posts have now been filled and priority will continue to be given to traffic posts. The Department is finding alternative means of addressing some of the resource problems like transport for traffic officers etc.

***Changes required to legislative and regulatory environment***

No changes except that the implementation of AARTO will have a positive effect on the behaviour of drivers.

Way Forward and Recommendations.

The current restructuring of traffic and realignment of traffic stations will address number of challenges like vacant posts in road traffic management budget constraints

Output 3.11: Crime Prevention

Co-ordinate an integrated approach towards crime prevention initiatives

Summary of problem statement

Efficient and effective policing expected to be performed by the SAPS can only be successfully achieved through support provided by the Department and other key stakeholders with Municipalities as core institutions through which programmes/projects are implemented. Marketing, monitoring performance and co-ordination of workshops that target Municipalities include Crime Prevention through Environmental Design Strategy(CPTED) strategy implementation, CPTED Letsema initiatives/activities, the Strategy to prevent and combat sexual offences, coordination of an Integrated Provincial Crime Prevention Summit, the Provincial Anti-Stock Theft Forum and PJCPs Community engagement meetings will need joint efforts to ensure cooperative governance.

Challenges

- Lack of dedicated budget on the side of Municipalities and the province to cater for safety projects to eradicate crime.
- Establishment of the local crime prevention plans by municipalities in order to implement the Crime Prevention through Environmental Design Strategy (CPTED) strategy, CPTED Letsema initiatives/activities and the Strategy to prevent and combat sexual offences.

Failures and reasons

- The Departmental plans are not in most instances supported by the municipalities and as a result fail.

What will be done differently?

- The municipalities will be engaged in joint planning for local crime prevention plans.
- The Integrated Provincial Crime Prevention Strategy will be developed and implemented

Changes required to legislative and regulatory environment

None

Way Forward and Recommendations

- Additional funding should be provided to cater for provision of incentives to volunteers to be engaged during implementation of the CPTED Letsema activities at each targeted Local Municipality.

- Adequate funding should be allocated to Municipalities to enable development of local crime prevention strategies and or implementation of the Provincial strategies.

Output 3.12: Promote and Monitor Community Police Relations

Summary of problem statement

Funding of social crime prevention projects

The Department is annually funding the 90 social crime prevention projects of Community Police Forums. This funding is not sufficient since some of the projects cannot be sustained in the absence of assistance from business communities.

Funding of Stipends/incentives for Community Police Forums

There is currently no National Framework/policy guideline on the funding of incentives for CPFs and this has led to the use of funding of crime prevention projects for peripheral issues like catering etc. Lack of funding for incentives of CPFS also lead to collapse of these structures. Changes in institutional arrangements (e.g. re-elections/by-elections and co-options due to loss of membership) often call for re-orientation/recapacitation/retraining for the structures to adjust. Late submission of Business plans which often results in the funds being transferred late in the financial year, (necessitating roll-over applications and at times deviations against intended objectives following changes/shift in policing priorities). Non compliance to the PFMA and other Financial Policies by CPF's in terms of utilizing the funds as required (poor record keeping and lack of accountability) impacts on the implementation of social crime prevention plans.

Monitoring functionality of CPF's

5.3.1 Our findings during the audit revealed that, some CPFs are often not functional due to a number of reasons for instance inconsistent membership (some employed), office bearers unable to perform their duties despite the training / induction that they receive to site some examples.

Capacity building of CPF's

5.4.1 This activity does not have a dedicated budget to realize the objective.

In order to ensure that the above is achieved to assist CPF's to be functional, an adequate budget is needed and this poses a serious challenge.

Challenges

Shortage of personnel for effective support of the 90 CPFs in the Province

Insufficient budget for ensuring capacity of CPF's; Non- compliance to Financial Prescripts by the CPF's which often result in recurrent audit queries (despite the induction that is conducted by the Department annually prior to the funds being transferred)

Failures and Reasons

- Late transfer of funds to the CPF's due to late submission of Business plans, resulting in non- implementation of approved projects/intended objectives
- Inadequate monitoring due to shortage of personnel to serve the entire number of 81 Police Station structures

- Lack of a comprehensive capacity building programme due to non-allocation of a training budget

What will be done differently?

- Put alternative control measures in place to ensure compliance (More strict monitoring of financial reports and submission of supporting documents from funded CPF's and Boards)
- Review of the training /induction manual to ensure understanding of the requirements
- Review the Protocol for funding and Administration of CPF's to ensure compliance to the PFMA and related requirements of the transfer payment allocations to avoid mismanagement of funds and audit queries
- That the SAPS (Station Commanders and Community Police Officers/CPO's) are influenced to become more responsible in supporting and monitoring the financial transactions made by CPF's to ensure compliance.

Changes required to legislative and regulatory environment

Changes in the Protocol for Funding and Administration of CPF's to be effected with regard to strengthening the responsibilities to be carried out by SAPS and the Department in supporting and monitoring CPF's National Framework on the establishment of CPFs is required

Way Forward and Recommendations

- It is recommended that a dedicated budget to capacitate CPF's be allocated annually by Treasury
- Number of personnel should be increased as per the Organizational Structure to ensure effective monitoring and support

Output 3.13: Facilitate Safety Promotion Programmes**Summary of problem statement**

The Department has the responsibility to coordinate crime prevention programmes in support of the SAPS policing plans. This is with respect to promoting increased safety awareness where gaps related to moral values and the need for education has been identified.

Challenges

Lack of commitment of key departments in supporting SAPS Plans.

Failures and reasons

Failures can only occur if there are no sufficient resources especially funding. Commitment of other stakeholders is also critical towards the success.

What will be done differently?

- Enhance coordination of crime prevention programmes
- Increase stakeholder participation and awareness programmes

2.1.6 Overview of the organizational environment for 2010/11

- **BAS implementation**

The Department had undergone a systems shift where the old Walker system was replaced by the Basic Accounting System (BAS) which brought about capacity challenges.

- **Merger between Human Settlements & Department of Public Safety and the split to Social Development, Women, Children and People with Disability.**

There was also a successful merger between the Department of Human Settlement and the Department of Public Safety & Liaison. Part of the Communications Unit and the MEC's budget of the former Department of Public Safety and Liaison were also transferred to the Department of Social Development, Women, Children and People with Disability.

- **Key Departmental Policy Development**

The department has developed its own policies to ensure its smooth functioning where there national policies cannot address the gaps that exist.

2.1.7 Key policy developments and legislative changes

- The Secretariat for Safety and Security Act has been enacted and will come into effect in 2011.
- The National Rolling Enforcement Plan has been developed.
- There are number of amendments that have been made to the Road Traffic Act in order to align it to the challenges on its implementation.

2.1.8. Departmental revenue, expenditure, and other specific topics

The Department's major revenue is derived from the motor vehicle licensing which makes up 90% of the department's total revenue budget, while other sources of revenue makes up 10% of the total revenue budget.

The Department, in order to meet its total revenue target approved by the Provincial Legislature, had to ensure the following:

- put in place stringent measures in ensuring that all revenue collecting offices deposit timeously all revenue collected.
- reconcile money deposited directly into the Department's Revenue Account by all revenue collecting offices, verify the deposit against the Department's own files, electronic National Traffic Information System and also against the Basic Accounting System reports.

Despite the many challenges the Department encountered within the sub-programme Revenue Management with regard to human resource, budget and equipment, it continued to uphold the delivery of functions and produced all reports required on a monthly basis. The uncompromising efforts put by the personnel within the revenue reconciliation seen the clearing of all outstanding bank exceptions at the end of the financial year, the process which will enable the department to close its books properly and report on time to the Provincial Treasury.

Furthermore, the Department recorded a total revenue collection of R318,345m as compared to the total budget projection of R212, 524m, which constitute in overall over-collection of R105,820m for the budget year 2011/2012.

Reasons for under-performance and measures taken during the course of the year to keep on target

- **Personalised License Numbers:**

The revenue under-collection recorded for this source is R716, 463.00 as compared to the total budget projection of R1 555, 000.00. This is due to lack of intensive marketing of the service currently rendered, and the fact that it is currently centralized to head office.

In view to intensify the marketing and sale of personalized license numbers, the Department then requested the eNaTIS (electronic National Traffic Information System) contractor, Tasima, to extract all data relating to the personalized license numbers in the North West Province to conduct an audit on which numbers are in use and which are not. This process will

assist with making those that were reserved but not utilized within twelve months, available for resale.

- **Implementation of Strategies:**

Revenue Maximization and Related Service Delivery Improvement Strategy:

The strategy had been finalized and deliberated upon by all internal stakeholders in view to prioritise all items that could be implemented in a short term.

Once again the eNaTIS Contractor, Tasima, was requested to extract data regarding motor dealerships and long outstanding motor vehicle license fees. The final execution of this part of exercise could not be done due to lack of resources in human bodies and budget.

What future measures will be taken to try and rectify the under-performance.

The below listed items in the Revenue Maximization and Related Service Delivery Improvement Strategy had already been identified for immediate implementation, where a team of Law Enforcement Officers will be established per district for execution thereof, in ensuring compliance to the National Road Traffic Act 1993, Act 93 of 1993 and Regulations.

- Motor Dealerships
- Outstanding Motor Vehicle License Fees

Reasons and factors for the better than anticipated performance.

- The introduction and implementation of stringent systems of internal controls and constant monitoring of all revenue collecting offices, including agencies resulted in the overall revenue over-collection to date as compared to the budget projection/target.
- Reconciliation of own revenue with that deposited into the Departmental Revenue Account and reported by the Basic

Accounting System (BAS) has been allocated properly to the departmental vote.

- The above par performance of the reconciliation staff members resulted from the enormous support and motivation received throughout the year from the sub-programme management.
- The deployment of the BAS specialist by the National Treasury has added immensely to the clearing of bank exceptions.
- Continuous encouragement of External MVRL Authorities to deposit revenue due to the Province, contributed positively to the timeous capturing of deposits receipts into the financial system.
- Internal deployment of staff also assisted a great deal in the overall achievement.

New measures instituted during the course of the year to raise additional revenue or to ensure more efficient/effective collection.

- Revenue Enhancement Plan

Revenue Maximization and Related Service Delivery Improvement Strategy

The strategy will be implemented in the new financial and will mainly focus on the following:

- Execution of a plan to collect outstanding revenue from motor dealerships in compliance to the Road Traffic Regulations.
- Establishment of a registering and licensing office at Hartbeespoortdam to either serve as a satellite of Brits Registering Authority or independently as a registering authority.
- Establishment of a satellite registering and licensing office at Lethlabile to serve the community of Lethlabile, the rural areas of Maboloka, Jericho and Fafung who travel a long distance to Brits registering authority for services of registering and licensing of their vehicles..

- Establishment of a 2 satellite registering and licensing office at Marikana (Rustenburg) taking advantage of the vastness of the growing city.

These structures will begin to function during the 2011/12 financial year after the launch in April/May.	

Reasons for major variances:

- The target for conducting road safety awareness in all communities has been exceeded due to the FIFA World Cup awareness campaigns and the promotion of the Decade of Action campaign.
- Thirty community engagement campaigns could not be conducted due to the delay in registration of local community newspapers on the Departmental Supply Chain data base.
- Target of four educator workshops exceeded because of the introduction of the new PET project which required more training for the learners and educators, and the partnership with Bakwena to conduct the multimedia workshops on behalf of the department.
- The target not achieved because of National Labour unrests

Strategic Objective	Measure/Indicator	Actual Performance against Target		Reason for Variance
		Target	Actual	
To provide effective traffic law enforcement	Report on Number of Speed Law Enforcement operations	15822	6 013	-9809 There were financial constraints to have speed machines calibrated due to expenditure on the world cup. Further to this major emphasis was placed on getting ready for the world cup and training programs for traffic officers also hampered operations in this sector.
	Report on Number of individual drivers and vehicles inspected for driver and vehicle fitness	506880	521418	14538 The success in this sector was as a result of the department creating awareness that a zero tolerance approach was being adopted in preparing for the world cup. We managed to ensure optimal visibility as the event approached and passed.
	Report on Number of special operations conducted	1164	2888	1724 The success in this sector was the intensified operations held with other security agencies such as SAPS. This influenced our operations positively as we prepared for the world cup.
	Report on Number of cross border operations conducted	36	38	2 Success was achieved through intensifying cross border operations mainly because we were aware that many drivers would cross provinces to watch games at different stadiums.
	Report on Number of roadblocks conducted	615	814	199 The success in this sector was as a result of the increase in operations with SAPS and other local traffic authorities. It was geared towards the world cup and intensified visibility of traffic. Our Easter operations and festive season operations were also intensified to minimise road deaths especially for visitors to South Africa

Strategic Objective	Measure/Indicator	Actual Performance against Target		Reason for Variance
		Target	Actual	
To provide effective traffic law enforcement	Report on Number of patrols on routes with high accident rates to ensure visible traffic policing	3168	17053	13885 As the world cup approached we had to increase patrols on roads where high accidents were recorded. This was also an attempt to ensure visitors to South Africa were able to travel safe on our roads during the world cup. This intensity was rolled out over the other festive periods which contributed to our success in this sector. As a result we had fewer deaths than 2009.
To protect road infrastructure	Report on Number of hours weigh bridges is operational	23040	22341	-699 Failure in this sector was due to the world cup operations because we had to use the personnel at weighbridges for this event over a period of 2 months.

The Audit Committee reports that it has complied with its responsibilities arising from section 38(1)(a) of the PFMA and Treasury Regulation 3.1

The Audit Committee also reports that it has adopted appropriate formal terms of reference as its charter, has regulated its affairs in compliance with this charter and has discharged all its responsibilities as contained therein.

The effectiveness of internal control

The system of internal control was not entirely effective for the year under review. Several deficiencies in the system of internal control were reported by the internal auditors and the Auditor-General South Africa in the report of the previous financial year.

The report of the Auditor-General South Africa for the 31 March 2011 presented to the Audit Committee for review indicated material deficiencies in the system of internal control and deviations were detected in controls tested by the Auditor General South Africa. In certain instances, the matters reported previously have not been fully and satisfactorily addressed.

The quality of in year management and monthly/quarterly reports submitted in terms of the PFMA and the Division of Revenue Act.

The Audit Committee is not satisfied with the content and quality of quarterly reports prepared and issued by the Accounting Officer of the Department during the year under review, as the reports to the Audit Committee did not adequately cover all the aspects

on which the Audit Committee is providing oversight such as the fraud and risk management. The main concerns in this regard are that the revenue control account is not cleared timeously and also that risk management is not fully utilised as a means to ensure service delivery.

Governance and performance information reporting to the Audit Committee is not adequate to enable the Audit Committee to exercise proper oversight.

Evaluation of Financial Statements

The Audit Committee has:

- reviewed and discussed the audited annual financial statements included in the annual report with the Accounting Officer;
- reviewed the Auditor-General's management report and management's response thereto;
- reviewed the departments compliance with legal and regulatory provisions within the limit of the departmental risk activity; and
- reviewed significant adjustments resulting from the audit.

The Audit Committee concurs and accepts the Auditor-General's conclusions on the annual financial statements, and is of the opinion that the audited annual financial statements be accepted and read together with the report of the Auditor-General.

Internal audit

The Audit Committee is not satisfied that the internal audit function is operating effectively and that it has addressed the risks pertinent to the department in its audit which is as a result of a high vacancy rate within the internal audit department. The Audit Committee also notes that the deficiencies in risk management mentioned above impact on the adequate implementation of the risk based audit approach.

REPORT OF THE ACCOUNTING OFFICER TO THE EXECUTIVE AUTHORITY AND PARLIAMENT/PROVINCIAL LEGISLATURE OF THE REPUBLIC OF SOUTH AFRICA.

2.1 General review of the state of financial affairs

The Department's key mandate is to provide safety to the public through number of its programmes.

Important policy decisions and strategic issues facing the department

Monitoring and oversight of the Police and Coordination of Crime Prevention Programme

The Department is responsible for the monitoring and oversight of the South African Police Service. This is provided for by Section 206 of the Constitution and the South African Police Act. This is carried out through visit to police stations and submission of recommendations to the South African Police Service for implementation. Follow up is usually made through compliance monitoring and joint management meetings with the South African Police Management. While the implementation of these Acts has been carried out diligently, there has been a need to review the provisions of these Acts to give more power to the Department (Provincial Secretariat for Safety and Security). To this end, a new Secretariat for Safety and Security Bill is under way for promulgation and should take effect in the 2011.

The Department is also responsible for the coordination of crime prevention in the province. This is carried out through the involvement of other criminal justice stakeholders and all other non- government institutions.

The Community Police Relations also play an important role in the fight against crime. The existence of the Community Police Forums continues to remain in the fight against crime. As a result the Department continuously find ways of improving this relationship and support crime prevention initiatives through transfer payment. While the Department acknowledges that the need to pay stipends, there is also a need for National policy in this regard.

The implementation of National Road Safety Strategy of 2006 and the Millennium Development Goal Strategy play a pivotal in halving road carnage by 2014. As a result the department has during the year under review continued to promote road safety through education and marketing and the enforcement of traffic laws through the implementation of the National Rolling Enforcement Plan. The Department still has to find ways of increasing its traffic capacity in order to implement a 24hour service in some of towns in the province.

Significant events that have taken place during the year

During the year under review, the Department was given the responsibility to ensure that the guarantees signed by the Minister of Safety and Security to deliver a safe and secure FIFA World Cup were achieved. Part of its responsibility was to coordinate the Criminal Justice Cluster Departments in the Province to develop plans in realising these guarantees and this was successfully done. As a result the plan was successfully implemented by all stakeholders under the operational command of the South African Police Services.

The Department had during the year under review successfully implemented the Community Patrollers Programme for the FIFA World Cup and the Road Safety Rangers for the Easter and Festive Season Arrive Alive.

The Minister of Transport also launched the Rolling Enforcement Plan during the year under review and to this end the Department successfully achieved its entire target except for the first month after the launch.

For the second in two years, the Department has successfully assessed all 81 police stations in its monitoring of the police stations.

The Department continuously assess the possibility of providing a 24 hour road traffic service to major towns to enhance service deliver beyond the call of duty. This will however require appointment of additional traffic officers to provide that service.

The Department also over collected on revenue to the amount of R 77,381m over a projected budget of R 212 524m. The total collection was R289,905m

Comment on major projects undertaken or completed during the year

No major projects were undertaken during the year.

Spending trends

- Reasons for under/over spending.

The Department spent R341,527m which is 100.8% of its total budget of R338, 795m during the year under review. The budget was therefore over spent by 0.8% of its adjusted allocation. Programme 01 has spent 91% of the budget (9% saving). A major saving was on compensation of employees. Most of the vacant posts that e planned for filling could not be filled in the year under review due to shortage of personnel in Human Resource Management. Programme 02 spent 97% of its budget with a saving of 3%.

Virement:

A virement of R9,304m was done from Programme 01, Compensation of employees to Programme 03 to offset overspending on goods and services which was mostly related to the FIFA World Cup activities as the department was one of the most key role players.

- Reason for the virement

The virement was done to defray overspending on Compensation of employees (R8,073m) and to reduce overspending on Goods and Services (R1,231m).

Treasury approval was sought for virements and was granted.

Any other material matter (including a description of the reasons for unauthorised, fruitless and wasteful expenditure and the amounts involved as well as steps taken to address and prevent a recurrence.)

Unauthorised expenditure

Total unauthorised expenditure for the year amounts to R13,468m. This is overspending of the programme (Programme 03: Transport Regulation). The overspending of this programme also led to the department overspending it allocated budget by R2,732m.

Fruitless and wasteful expenditure

Fruitless and wasteful expenditure for the year amounts to R86,000. This resulted from the cancellation and re-advertisement of tenders for office accommodation and security services.

3 Service rendered by the department

The following services are rendered by the Department

Administration Services

This programme is responsible for the provision of policy leadership, advice and support for core mandate. Administration is including finance, human resources, legal services, information and management services, communications and supply chain management.

Community Safety Services

The programme renders monitoring and oversight of the police, coordination of crime prevention initiatives within the province and enhancing community police relations services. The programme is implemented through assessment of police station service delivery and coordination of the Criminal Justice Cluster Departments and support of Community Police Forums.

Road Traffic Management Services

The Road Traffic Management renders law enforcement services to the motorists through the implementation of the National Road Traffic Act, 93 of 1996, the Road Traffic Act, 29 of 1989 and other related Acts and policies on law enforcement. This is done through implementation of the National Rolling Enforcement Plan of 2010/11.

The Road Safety Management Services

The programme continuously promotes and educates the public on Road Safety related topics. This is aimed at reducing the number of accidents and fatalities that may occur specifically changing the behaviour and attitude of road users in the North West Province.

Revenue Collection Services

The programme is functionally and administratively responsible for the revenue collection on behalf of the Provincial Treasury from all thirty three (33) motor vehicle registration and licensing authorities. The Department's major revenue is derived from the motor vehicle licensing which makes up 90% of its total revenue budget, and other sources of revenue (ten), which includes traffic fines, makes up 10%.

The motor vehicles licence fees is partly collected through an agency agreement with municipalities.

Registration and licensing of motor vehicles as well as the management of Driving License Testing Centres (DLTCs) and Vehicle Testing Stations (VTSS) functions are performed by the Local Authorities on behalf of the Department.

Of the thirty three (33) DLTCs in operation, twenty eight (28) are administered and monitored by the municipalities, and the revenue generated thereto is paid 100% municipal revenue. Only five (5) accounts directly to the department and the administration thereof are within the programme Road Traffic Management.

Tariff policy

The department does not have a tariff policy in place, other than being guided by the provincial revenue policy. Any proposed tariff adjustments is dealt with in accordance to Treasury Regulations 7.3.1, which requires the Accounting Officer of the department to, at least annually when finalizing the budget, review all fees, charges or rates, scales or tariffs of fees and charges that are not or cannot be fixed by any law and that relate to revenue accruing to a revenue fund.

Approval for the tariff structure is obtained from the provincial treasury. The approved adjustments are then gazetted by the Member of the Executive Council in

terms of section 25 of the North West Road Traffic Act, 1997 (act No. 11 of 1997).

Free Services

There are no free services provided by the department, which would have otherwise yielded revenue.

Inventories

The total inventories on hand at year-end amounts to R243,587.69 as disclosed in Annexure 6. The information on the list of assets is disclosed in the annual report.

4 Capacity constraints

Capacity constraints have been a major problem for the Department of Public Safety as a whole. The delay in filling some of the posts was as a result of the reconfiguration of departments during the year under review leading to the revision of the departmental structure. The process to fill prioritised posts is underway and should be finalised in 2011/12 financial year.

5 Utilisation of donor funds

The department does not have donor funds

6 Trading entities and public entities

The department does not have any trading entities and public entities.

7 Organisations to whom transfer payments have been made

The department has made annual transfer payment to the Community Police Forums through the Community Police Board. A total amount of R680, 000 was transferred during the year under review.

1.2

NAME	AMOUNT
Community Policing Board	680,000
	680,000

8 Public private partnerships (PPP)

The department does not have PPPs

9 Corporate governance arrangements

Risk management approach

In terms of Section 3.2.1 of the Treasury Regulations, the accounting officer must ensure that risk assessments are conducted regularly to identify emerging risks of the institution.

The Chief Risk Officer was appointed to drive the enterprise wide risk management strategy of the Department. As part of the strategy the department appointed the Risk Management Committee which will also address the Fraud Prevention matters. The terms of reference for this committee, the Risk Management Statement (Philosophy), and the Risk Appetite was also finalised as part of the strategy. The Department assessed significant risks from both the internal and external environments to determine its risk profile and designed risk registers to be managed by the programme managers.

Fraud prevention policies

The Department has adopted an enterprise wide risk management strategy of which the Fraud Prevention Plan and the Business Continuity Plan are part thereof. Seeing that the Department is one of the largest revenue collectors within the Province and seeks to maximize and enhance such collection, it seeks to eradicate fraud within its systems and processes by intensifying its fight against fraud and corruption. The department is launching its fraud prevention plan in August 2011.

Effectiveness of internal audit and audit committee

The Department is satisfied that the internal audit function is operating effectively and addressing the risks pertinent to the department, however the department has restructured its risk management approach to assist the Internal Audit to embark on a risk based approach in order to add value.

Other governance structures, including management processes to minimise conflict of interest

The Departmental Management Committee (DMC) and the Departmental BID Adjudicating Committee (DBAC) are functioning effectively in helping the department achieve its objectives. The risk management committee was also appointed and formalized its operations. With consideration to the size of the Department, this committee will also serve as the Fraud Prevention Committee. The budget management committee has also been appointed and terms of reference finalized.

10 Discontinued activities/activities to be discontinued

There are no discontinued operations for the year under review

11 New/proposed activities

No new / proposed activities.

12 Asset management

The Department undertook verification and valuation exercise for its movable assets. All were verified and bar-coded to enable tracking and identification. The results of verification and valuation of assets show that the department is in charge of assets worth R8,581m. Adjustments were done during the year and some of the assets belonging to the department of Public Works and the department of Roads, Transport and Community Safety were retired from the asset register.

13 Inventories

All Inventory opening and closing balances, together with movements for the year are reflected in the Annexure 6 on Inventory.

14 Events after the reporting date

None

15 Information on predetermined objectives

State processes that are in place to report and record the information on predetermined objectives. The information reported should include comments on the process adopted to achieve the pre-determined objectives or if no process has been put into place, what processes are planned. Include reasons why the information is not properly recorded, reported and measured.

16 SCOPA resolutions

Reference to previous audit report and SCOPA resolutions	Subject	Findings on progress
none		

17 Prior modifications to audit reports

The department has put in place an audit action plan to be used to follow-up and address matters raised by the Auditor-General. Two issues led to the qualification, which was on assets and receivables.

Nature of qualification, disclaimer, adverse opinion and matters of non-compliance	Financial year in which it first arose	Progress made in clearing / resolving the matter*
I was unable to obtain sufficient appropriate audit evidence for movable tangible capital assets of R9 271 000 disclosed in note 42 to the financial statements due to an unexplained difference R1 083 000 between the amount disclosed and the balance of R8 188 000 as per the reconciled asset register. The entity's records did not permit the application of alternative audit procedures regarding movable tangible capital assets. Consequently, the completeness, existence, valuation, rights and obligations of movable tangible capital assets of R9 271 000 disclosed in note 42 to the financial statements could not be confirmed.	2009/10	The asset register has been updated. All adjustments have been accounted for.
	2009/10	Receivables are followed up on a monthly basis

18 Exemptions and deviations received from the National Treasury

No exemptions were applied for or granted by Treasury.

19 Interim Financial Statements

Interim Financial Statements were prepared at the end of the second quarter of the financial year

20 Other

None

21 Approval

The Annual Financial Statements set out on pages x to y have been approved by the Accounting Officer(s).

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

REPORT OF THE AUDITOR-GENERAL TO THE NORTH WEST PROVINCIAL LEGISLATURE ON VOTE NO. 5: DEPARTMENT OF PUBLIC SAFETY

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the accompanying financial statements of the Department of Public Safety, which comprise the appropriation statement, the statement of financial position as at 31 March 2011, the statement of financial performance and cash flow statement for the year then ended, a summary of significant accounting policies and other explanatory information, as set out on pages **86 to 132**.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation of these financial statements in accordance with the Departmental Financial Reporting Framework prescribed by the National Treasury and the manner required of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA) and the Division of Revenue Act of South Africa, 2010 (Act No. 1 of 2010) (DoRA)), and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. As required by section 188 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) and section 4 of the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), my responsibility is to express an opinion on these financial statements based on my audit.
4. I conducted my audit in accordance with International Standards on Auditing and *General Notice 1111 of 2010* issued in *Government Gazette 33872 of 15 December 2010*. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether

due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

6. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my qualified audit opinion.

Basis for qualified opinion

Accruals

7. The Departmental Financial Reporting Framework requires that the department disclose as accruals all goods and service received, but where no invoice was received or where the invoice was received but final authorisation for the payment was not yet effected. The department did not have an adequate system in place for the identification and recording of such accruals. This resulted in accruals disclosed in note 30 to the financial statements being understated by R3 771 232.

Qualified opinion

8. In my opinion, except for the effects of the matter described in the basis for qualified opinion paragraph, the financial statements present fairly, in all material respects, the financial position of the Department of Public Safety as at 31 March 2011 and its financial performance and cash flows for the year then ended, in accordance with the Departmental Financial Reporting Framework prescribed by the National Treasury and the requirements of the PFMA and the DoRA.

Emphasis of matters

9. I draw attention to the matters below. My opinion is not modified in respect of these matters:

Unauthorised expenditure

10. As disclosed in note 13 to the financial statements, unauthorised expenditure of R2 462 000 in respect of prior years had not yet been dealt with in accordance with section 34 of the PFMA, whilst the department incurred unauthorised expenditure of R13 468 000 during the current year as a result of an overspending on the Transport Regulation Programme.

Irregular expenditure

11. As disclosed in note 34 to the financial statements, the department incurred irregular expenditure of R94 203 000 during the current year. The irregular expenditure was as a result of SCM processes not being followed, finance leases incorrectly entered into and violations of the Public Service Regulations.

Accruals

12. As disclosed in note 30 to the financial statements, accruals which exceeded the required payment term of 30 days as detailed in Treasury Regulation 8.2.3, amounted to R6 686 000. As the department's expenditure was in excess of its appropriation, the amount of R6 686 000 would have constituted unauthorised expenditure had this amount been paid in time.

Additional matters

13. I draw attention to the matters below. My opinion is not modified in respect of these matters:

Unaudited supplementary schedules

14. The supplementary information set out on pages **13'** to **13+** does not form part of the financial statements and is presented as additional information. I have not audited these annexures and accordingly, I do not express an opinion thereon.

Financial reporting framework

15. The financial reporting framework prescribed by the National Treasury and applied by the department is a compliance framework. Thus my opinion would have reflected that the financial statements had been properly prepared instead of fairly presented as required by section 20(2)(a) of the PAA, which requires me to express an opinion on the fair presentation of the financial statements of the department.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

16. In accordance with the PAA and in terms of *General Notice 1111 of 2010*, issued in *Government Gazette 33872 of 15 December 2010*, I include below my findings on the annual performance report as set out on pages **15** to **66** and material non-compliance with laws and regulations applicable to the department.

Predetermined objectives

Usefulness of information

17. The reported performance against predetermined objectives was deficient in respect of the following criteria:
- Measurability: Indicators are well-defined and verifiable, and targets are specific, measurable and time-bound
 - Consistency: Objectives, indicators and targets are consistent between planning and reporting documents

The following audit findings relate to the above criteria:

Reported objectives, indicators and targets are not consistent when compared with the planned objectives, indicators and targets

18. Reported performance against predetermined objectives, indicators and targets is not consistent with the approved annual performance plan.

Changes to planned objectives, indicators and targets are not approved

19. Different objectives, indicators and targets were reported on as opposed to the approved annual performance plan. These different objectives, indicators and targets were not approved subsequent to the strategic planning process.

Planned and reported targets are not specific and measurable

20. For the selected programmes Crime Prevention and Community Police Relations and Transport Regulation, 71% of the planned and reported targets were not specific in clearly identifying the nature and the required level of performance.

Planned and reported targets are not specific and measurable

21. For the selected programmes Crime Prevention and Community Police Relations and Transport Regulation, 82% of the planned and reported targets were not measurable in identifying the required performance.

Planned and reported indicators are not well defined

22. For the selected programmes Crime Prevention and Community Police Relations and Transport Regulation, 62% of the planned and reported indicators were not clear, as unambiguous data definitions were not available to allow for data to be collected consistently.

Planned and reported indicators are not verifiable

23. For the selected programmes Crime Prevention and Community Police Relations and Transport Regulation, valid performance management processes and systems that produce actual performance against the planned indicators do not exist for 69% of the indicators.

Reliability of information

24. The reported performance against predetermined objectives was deficient in respect of the following criteria:

- Validity: Actual reported performance has occurred and pertains to the entity.
- Accuracy: Amounts, numbers and other data relating to reported actual performance have been recorded and reported appropriately.

The following audit findings relate to the above criteria:

Reported performance against targets is not valid and accurate when compared to source information

25. Sufficient appropriate evidence to support the reasons for major variances between the planned and the actual reported targets could not be obtained. 35% of the reasons for major variances could not be verified.

The validity and accuracy of reported performance against targets could not be confirmed as no supporting source information was provided

26. For the selected programmes Crime Prevention and Community Police Relations and Transport Regulation, 66% of the reported targets were not valid and accurate based on the source information or evidence provided.

Compliance with laws and regulations

Strategic planning and performance management

27. The accounting officer did not ensure that the department had and maintained an effective, efficient and transparent system of internal control regarding performance management, which described and represented how the institution's processes of performance planning, monitoring, measurement, review and reporting was conducted, organised and managed as required by sections 38(1)(a)(i) and (b) of the PFMA.

Budgets

28. The accounting officer did not ensure that the expenditure of the department is in accordance with the vote and the main divisions within the vote as required by sections 39(1)(a) and 39(2)(c) of the PFMA.

Financial statements

29. The accounting officer submitted financial statements for auditing that were not prepared in all material aspects in accordance with generally recognised accounting practice as required by section 40(1)(b) of the PFMA. Certain material misstatements identified by the AGSA with regards to receivables for departmental revenue, irregular expenditure, commitments, revenue, receivables, departmental revenue and NRF receipts to be surrendered to the Revenue fund, capital expenditure and goods and services were subsequently corrected, however the uncorrected material misstatement resulted in the financial statements receiving a qualified audit opinion in contravention of section 40(3)(a) of the PFMA.

Procurement and contract management

30. Goods and services with a transaction value between R10 000 and R500 000 were procured without inviting at least three written price quotations from prospective suppliers, as required by National Treasury Practice Note 8 of 2007-08 issued in terms of section 76(4)(c) of the PFMA.
31. Sufficient appropriate audit evidence could not be obtained that goods and services with a transaction value over R500 000 were procured by means of a competitive bidding process as required by Treasury Regulation 16A6.1, Treasury Regulation 16A6.4 and National Treasury Practice Note 6 and 8 of 2007/08.
32. One invitation for competitive bidding of R2,6 million was not advertised for a minimum period of 21 days as required by Treasury Regulation 16A6.3(c).
33. The preference point system was not applied in all procurement of goods and services above R30 000 as required by section 2(a) of the Preferential Procurement Policy Framework Act.

Human resource management and compensation

34. Monthly compensation for overtime was not limited to 30 percent of monthly salary (except in exceptional circumstances) as required by the Public

Service Regulations (PSR) 1/V/D.2(d).

35. Employees were compensated for overtime work without prior written authorisation as required by PSR 1/V/D.2(c).

36. Persons in charge at pay points did not certify the payroll report as required by Treasury Regulation 8.3.4.

Expenditure management

37. Payments due to creditors were not in all cases settled within 30 days from receipt of an invoice, as required by section 38(1)(f) of the PFMA and Treasury Regulation 8.2.3.

38. The accounting officer did not take effective and appropriate steps to prevent and detect unauthorised and irregular expenditure as required by section 38(1)(c)(ii) and 39(1)(b) of the PFMA and Treasury Regulation 9.1.1.

39. The accounting officer did not immediately upon the discovery of unauthorised and irregular expenditure, report it to the relevant treasury as required by section 38(1)(g) of the PFMA.

Revenue management

40. The accounting officer did not take effective and appropriate steps to timeously collect all money due to the department as required by Treasury Regulation 11.2.1.

41. Money collected by the department, but classified not to be revenue, was not paid into the department's Paymaster-General account and accounted for in the ledger as required by Treasury Regulations 15.5.3.

42. The accounting officer did not develop and implement appropriate processes that provide for the identification, collection, recording, reconciliation and safeguarding of information about revenue, to ensure that all money due to the department was collected as required by section 38(1)(c)(ii) of the PFMA and Treasury Regulation 7.2.1.

INTERNAL CONTROL

43. In accordance with the PAA and in terms of *General Notice 1111 of 2010*, issued in *Government Gazette 33872 of 15 December 2010*, I considered internal control relevant to my audit, but not for the purpose of expressing an opinion on the effectiveness of internal control. The matters reported below are limited to the significant deficiencies that resulted in the basis for qualified opinion, the findings on the annual performance report and the findings on compliance with laws and regulations included in this report.

Leadership

44. The leadership failed to establish policies and procedures to support the internal control objectives, processes and responsibilities of the department. Oversight over financial and performance reporting, compliance with laws and regulations and related internal controls was not adequately exercised.

Financial and performance management

- 45. Management failed to implement effective controls to ensure that information in the financial statements and the report on predetermined objectives were reliable before submission for audit.
- 46. The department did not have an adequate revenue and debtor management system to enable effective and efficient monitoring of departmental revenue and receivables.

Governance

- 47. The risk assessment process was ineffective in providing oversight on the effectiveness of the internal control environment which includes financial and performance reporting and compliance with laws and regulations.

1. Detail of transfers and subsidies as per Appropriation Act (after Virement):

Detail of these transactions can be viewed in the note on Transfers and subsidies, disclosure notes and Annexure 1 (A-H) to the Annual Financial Statements.

2. Detail of specifically and exclusively appropriated amounts voted (after Virement):

Detail of these transactions can be viewed in note 1 (Annual Appropriation) to the Annual Financial Statements.

3. Detail on financial transactions in assets and liabilities

Detail of these transactions per programme can be viewed in the note to Financial transactions in assets and liabilities to the Annual Financial Statements.

4. Explanations of material variances from Amounts Voted (after virement):

4.1 Per programme:

Final Appropriation	Actual Expenditure	Variance	Variance as a % of Final Approp.
R'000	R'000	R'000	%

Programme 01: Administration

107,007	97,088	9,919	91%
---------	--------	-------	-----

The major saving on this programme was on Compensation of employees. The reason for this is that critical vacant posts could not be filled during the year.

Programme 02: Crime Prevention and
Community Police Relations

32,100	31,287	813	97%
--------	--------	-----	-----

The major saving on this programme was on Compensation of employees. The reason for this is that critical vacant posts could not be filled during the year.

Programme 03: Transport Regulation

199,688	213,156	-13,468	107%
---------	---------	---------	------

There is a major overexpenditure on goods and services (Travel and Subsistence). The expenditure is mostly related to the FIFA worldcup activities as the department was on of the key role players

(In the case of surpluses on programmes, a detailed explanation must be given as to whether it is as a result of a saving or underspending.)

3.1 Compensation of employees

3.1.1 Short-term employee benefits

Salaries and wages comprise payments to employees (including leave entitlements, thirteenth cheques and performance bonuses). Salaries and wages are recognised as an expense in the Statement of Financial Performance when final authorisation for payment is effected on the system (by no later than 31 March of each year). Capitalised compensation forms part of the expenditure for capital assets in the Statement of Financial Performance.

All other payments are classified as current expense.

Short-term employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements. These amounts are not recognised in the Statement of Financial Performance or Position.

3.1.2 Post retirement benefits

The Department provides retirement benefits (pension benefits) for certain of its employees through a defined benefit plan for government employees. These benefits are funded by both employer and employee contributions.

Employer contributions (i.e. social contributions) to the fund are expensed when the final authorisation for payment to the fund is effected on the system (by no later than 31 March of each year). No provision is made for retirement benefits in the financial statements of the department. Any potential liabilities are disclosed in the financial statements of the Provincial Revenue Fund and not in the financial statements of the employer department.

The Department provides medical benefits for certain of its employees. Employer contributions to the medical funds are expensed when final authorisation for payment to the fund is effected on the system (by no later than 31 March of each year).

3.1.3 Termination benefits

Termination benefits such as severance packages are recognised as an expense in the Statement of Financial Performance as a transfer (to households) when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

3.1.4 Other long-term employee benefits

Other long-term employee benefits (such as capped leave) are recognised as an expense in the Statement of Financial Performance as a transfer (to households) when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

Long-term employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements. These amounts are not recognised in the Statement of Financial Performance or Position.

3.2 Goods and services

Payments made for goods and/or services are recognised as an expense in the Statement of Financial Performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year). The expense is classified as capital if the goods and services were used for a capital project or an asset of R5000 or more is purchased. All assets costing less than R5000 will also be reflected under goods and services.

3.3 Interest and rent on land

Interest and rental payments are recognised as an expense in the Statement of Financial Performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year). This item excludes rental for the use of buildings or other fixed structures. If it is not possible to distinguish between payment for the use of land and the fixed structures on it, the whole amount should be recorded under goods and services.

3.4 Financial transactions in assets and liabilities

Debts are written off when identified as irrecoverable. Debts written-off are limited to the amount of savings and/or underspending of appropriated funds. The write off occurs at year-end or when funds are available. No provision is made for irrecoverable amounts but amounts are disclosed as a disclosure note.

All **other losses** are recognised when authorisation has been granted for the recognition thereof.

3.5 Transfers and subsidies

Transfers and subsidies are recognised as an expense when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

3.6 Unauthorised expenditure

When discovered unauthorised expenditure is recognised as an asset in the statement of financial position until such time as the expenditure is either approved by the relevant authority, recovered from the responsible person or written off as irrecoverable in the Statement of Financial Performance.

Unauthorised expenditure approved with funding is recognised in the Statement of Financial Performance when the unauthorised expenditure is approved and the related funds are received. Where the amount is approved without funding it is recognised as expenditure, subject to availability of savings, in the Statement of Financial Performance on the date of approval.

3.7 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure is recognised as expenditure in the Statement of Financial Performance. If the expenditure is recoverable it is treated as an asset until it is recovered from the responsible person or written off as irrecoverable in the Statement of Financial Performance.

3.8 Irregular expenditure

Irregular expenditure is recognised as expenditure in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority it is treated as an asset until it is recovered or written off as irrecoverable in the Statement of Financial Performance.

3.9 Expenditure for capital assets

Payments made for capital assets are recognised as an expense in the Statement of Financial Performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

4. ASSETS

4.1 Cash and cash equivalents

Cash and cash equivalents are carried in the Statement of Financial Position at cost.

For the purposes of the Cash Flow Statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

4.2 Other financial assets

Other financial assets are carried in the Statement of Financial Position at cost.

4.3 Prepayments and advances

Amounts prepaid or advanced are recognised in the Statement of Financial Position when the payments are made.

Pre-payments and advances outstanding at the end of the year are carried in the Statement of Financial Position at cost.

4.4 Receivables

Receivables included in the Statement of Financial Position arise from cash payments made that are recoverable from another party.

Receivables outstanding at year-end are carried in the Statement of Financial Position at cost.

4.5 Investments

Capitalised investments are shown at cost in the Statement of Financial Position. Any cash flows such as dividends received or proceeds from the sale of the investment are recognised in the Statement of Financial Performance when the cash is received.

Investments are tested for an impairment loss whenever events or changes in circumstances indicate that the investment may be impaired. Any loss is included in the disclosure notes.

4.6 Loans

Loans are recognised in the Statement of Financial Position at the nominal amount when cash is paid to the beneficiary. Loan balances are reduced when cash repayments are received from the beneficiary. Amounts that are potentially irrecoverable are included in the disclosure notes.

Loans that are outstanding at year-end are carried in the Statement of Financial Position at cost.

4.7 Inventory

Inventories purchased during the financial year are disclosed at cost in the notes.

4.8 Capital assets

4.8.1 Movable assets

A capital asset is recorded on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the movable capital asset is stated at fair value. Where fair value cannot be determined, the capital asset is included in the asset register at R1.

Subsequent expenditure of a capital nature is recorded in the Statement of Financial Performance as “expenditure for capital asset” and is capitalised in the asset register of the department on completion of the project.

Repairs and maintenance is expensed as current “goods and services” in the Statement of Financial Performance.

4.8.2 Immovable assets

A capital asset is recorded on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the immovable capital asset is stated at R1 unless the fair value for the asset has been reliably estimated.

Work-in-progress of a capital nature is recorded in the Statement of Financial Performance as “expenditure for capital asset”. On completion, the total cost of the project is included in the asset register of the department that legally owns the asset or the provincial Department of Public Works.

Repairs and maintenance is expensed as current “goods and services” in the Statement of Financial Performance.

4.9 Contingent assets

Contingent assets are included in the disclosure notes to the financial statements.

5. LIABILITIES

5.1 Voted funds to be surrendered to the Revenue Fund

Unexpended appropriated funds are surrendered to the National/Provincial Revenue Fund. Amounts owing to the Provincial Revenue Fund at the end of the financial year are recognised in the Statement of Financial Position.

5.2 Departmental revenue to be surrendered to the Revenue Fund

Amounts owing to the Provincial Revenue Fund at the end of the financial year are recognised in the Statement of Financial Position at cost.

5.3 Direct Exchequer receipts to be surrendered to the Revenue Fund

All direct exchequer fund receipts are recognised in the Statement of Financial Performance when the cash is received.

Amounts received must be surrendered to the relevant revenue fund on receipt thereof. Any amount not surrendered at year end is reflected as a current payable in the Statement of Financial Position.

5.4 Bank overdraft

The bank overdraft is carried in the Statement of Financial Position at cost.

5.5 Payables

Recognised payables mainly comprise of amounts owing to other governmental entities. These payables are recognised at historical cost in the Statement of Financial Position.

5.6 Contingent liabilities

Contingent liabilities are included in the disclosure notes to the financial statements.

5.7 Commitments

Commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance but are included in the disclosure notes.

5.8 Accruals

Accruals are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance but are included in the disclosure notes.

5.9 Employee benefits

Short-term employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements. These amounts are not recognised in the Statement of Financial Performance or the Statement of Financial Position.

5.10 Lease commitments

Lease commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance but are included in the disclosure notes.

Operating and finance lease commitments are expensed when the payments are made. Assets acquired in terms of finance lease agreements are disclosed in the annexures and disclosure notes to the financial statements.

6. RECEIVABLES FOR DEPARTMENTAL REVENUE

Receivables for departmental revenue are disclosed in the disclosure notes to the annual financial statements.

7. NET ASSETS

7.1 Capitalisation reserve

The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the Statement of Financial Position for the first time in the current reporting period. Amounts are transferred to the Provincial Revenue Fund on disposal, repayment or recovery of such amounts.

7.2 Recoverable revenue

Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year.

8. RELATED PARTY TRANSACTIONS

Specific information with regards to related party transactions is included in the disclosure notes.

9. KEY MANAGEMENT PERSONNEL

Compensation paid to key management personnel including their family members where relevant, is included in the disclosure notes.

10. PUBLIC PRIVATE PARTNERSHIPS

A description of the PPP arrangement, the contract fees and current and capital expenditure relating to the PPP arrangement is included in the disclosure notes.

Not all revenue has been recognised as the total revenue collected does not include 20% revenue collection agent's commission.

The commission was not part of the appropriation, so it could not be realised as part of revenue in the financial records.

Not all revenue collected was paid into the Revenue Fund account. R30,304m was paid over to RTMC
