MEC Motlhabane to lead deliberations on stocktheft crime trends and patterns in Moses Kotane

Farmers and Dikgosi's within the villages of Moses Kotane will deliberate on ways of dealing with the high rate of stocktheft in the area.

This will be held in a workshop format, where relevant stakeholders, such as the South African Police Service (SAPS), National Prosecuting Authority (NPA) and the Department of Community Safety and Transport Management will be presenting on stocktheft crime trends and patterns, court proceedings and partnership formations on the fight against such crimes.

Lack of branding, tattooing, stock neglect, poor structures (fence), systems (by-laws) to control stock movement in the locality and irregular issuing of pouching permits will be part of discussions during the workshop which is set to educate communities on their effects as they mainly contribute to the increasing rate of stock theft.

Members of the media are therefore invited to be part of this event which will be held as follows:

Date	Venue	Time
Friday, 17/02/2017	Mabeskraal Community Hall	08:00
