MEC YAWA TO LAUNCH PROGRAMME FOR CONSTRUCTION WEEK

North West MEC for Public Works, Honourable Howard Yawa is to launch his department's programme for Construction Week on Thursday 27 July with the handover of the newly build Father Smangalisso Comprehensive High School at Slovoville in Winterveldt.

The completion of the R9, 5 million School Building Project three months ahead of schedule entrenches the trend of accelerated delivery and service excellence that have in recent years become the trademark of the department.

The Provincial Programme for Construction Week, which commences on 27 July-3 August 2006 also includes the handover of Reabetswe Secondary School in Ipeleng Township near Schweitzer Reneke, visits to learning institutions to encourage learners to follow careers in the built and construction sectors, visits to construction sites by youth and a meeting with consultants and contractors.

The National Construction Week is a nation-wide awareness campaign to promote the image and profile of the construction sector, so as to give young learners the opportunity to experience a wide range of exciting opportunities available in today's built environment and construction sector.
